FOR IMMEDIATE RELEASE

**GOEVIN and Drive Clean Indiana Launch
*GOEVIN: Closing the Gap Tour, A Summer 2025 Roadshow***

**New Funding Opportunity Available for
DCFC and Level 2 Charging Infrastructure**

Saint John, IN - GOEVIN (Go Electric Vehicle Indiana) and Drive Clean Indiana are excited to launch the *GOEVIN: Closing the Gap Tour* — a multi-stop roadshow dedicated to building awareness and support for expanding electric vehicle (EV) charging infrastructure across Indiana.

The *GOEVIN: Closing the Gap Tour* coincides with new funding opportunities covering up to 75% of the cost for DCFC and Level 2 charging stations. The funding prioritizes locations across Indiana that can deploy DCFC charging infrastructure along the state's alternative fuel corridors and in-demand Level 2 stations in local communities. Additional details and the intake form are available at goevin.com/programs-and-incentives. All applications are due by June 30, 2025.

In June 2025, the *GOEVIN: Closing the Gap Tour* will visit eight cities across the state, including Evansville, Clarksville, Indianapolis, Muncie, South Bend, Fort Wayne, Lafayette, and Hammond. These free events will feature a presentation and Q&A session to encourage local leaders, fleet operators, businesses, and residents to help “close the gap” in charging access and empower

longer EV travel throughout Indiana. Register for any of the eight events [here](#). Interested parties can find registration and funding information on the GOEVIN website.

The *GOEVIN: Closing the Gap Tour* schedule is as follows.
