

**Bill McCall, Communications Director, ITR Concession Company:** Bill specializes with messaging between the company & those invested in it, such as the employees & stakeholders, as well as passing vital information to customers & others interested parties. Internally, he increases employee awareness & engagement while promoting productivity. Externally, he maintains the world-class values of the company through social media & customer outreach. He provides executive-level advice & counsel as well as assigning, developing & editing multiple forms of communication. He is also tasked with crisis communication responses for incidents on & around ITRCC.

---

**Jeremy P. Stutsman, Mayor, City of Goshen:** Mayor Jeremy P. Stutsman took office in January 2016. Previously, he served on the City Council and Redevelopment Commission for eight years. He is a seventh-generation Goshen resident who graduated from Goshen Community Schools and Butler University. Mayor Stutsman has been active in numerous local boards and not-for-profit organizations over the past 20 years. He is the 30th Mayor of the City of Goshen and youngest mayor to serve the residents of the city.

---

**Shawn Seals, Senior Environmental Manager, Indiana Department of Environmental Management:** Shawn's IDEM responsibilities include conducting air quality outreach & education sessions, criteria pollutant planning for 8-hour ozone & fine particulates, developing State Implementation Plans, as well as facilitating all transportation conformity issues for IDEM. He is also IDEM's primary contact for all things diesel & the administrator of the DieselWise Indiana program. Shawn is a co-lead for the State of Indiana's partnership with the Midwest Clean Diesel Initiative. He also serves as IDEM's lead for transportation planning & the transportation conformity process & also IDEM's environmental point person for all fuel-type issues.

## SCHEDULED SPEAKERS

**Amy Hill, General Manager & CEO, South Bend Transpo:** Amy joined Transpo in April 2013, bringing extensive marketing, communications, public relations, business development & community outreach experience. In the short time Amy has been with Transpo, the organization has rebranded, launched a new website, opened the first-fast fuel compressed natural gas fueling center in the region & transitioned to designated bus stops. Prior to joining Transpo, Amy worked in leadership roles with the American Red Cross, South Bend Silver Hawks Professional Baseball Club & Gibson Insurance.

---

**Ryan Lisek, Project Manager, South Shore Clean Cities:** Ryan serves as project manager for South Shore Clean Cities & Wisconsin Clean Cities & Vice President of Operations for Legacy Environmental Services, Inc. Ryan has been associated with the U.S. Department of Energy's Clean Cities Program since 2015. Ryan's Clean Cities duties include managing the Green Fleet programs for two metropolitan planning organizations & being a technical resource for sustainable transportation & energy projects. His educational & technical experience spans financial, project management, energy, transportation & emission reduction sectors.

---

**Amy Rosa, Director of Transportation/School Safety, Wa-Nee Community Schools:** Amy has led the transportation department at Wa-Nee Community Schools since 2006. She began as a bus driver for Wa-Nee in 1997. Through the years she has worked in school transportation in Indiana and Ohio. Amy serves as a region director for School Transportation Association of Indiana and will represent Indiana as a delegate to the 17th National Congress on School Transportation in May of 2020.

## SCHEDULED SPEAKERS

**Adam Thada, Director of Ecological Relationships, The Center at Donaldson:** Adam serves as director of ecological relationships at The Center at Donaldson (TCAD), a ministry of the Poor Handmaids of Jesus Christ, where he carries on a longtime commitment to sustainability, ecology & earth education. In 2018 & 2019, Thada worked collaboratively to bring solar installations totaling 631-kilowatts to TCAD & Ancilla College of Marian University, the largest solar installation at an Indiana college or university. These were paired with electric vehicle charging infrastructure & a fleet that now includes three EVs.

---

**Nathan Oliver, Director of Transportation, Monroe County Community Schools:** Nathan has been working for Monroe County Community School Corporation for the past five years. Most of his duties involve but are not limited to establishing all bus routes for MCCSC & monitoring the transportation budget & researching & implementing new technologies. He is proud of being able to implement EV school buses & EV infrastructure into the MCCSC fleet. Nathan lives in Bloomington, Indiana. He uses his free time to serve as President of a high school football booster club, help his son & daughter start businesses of their own & spend time with his family.

---

**Doug Marsh, Vice President for Facilities Design and Operations and University Architect, University of Notre Dame:** Doug has been responsible for leading the University in the successful planning, design & construction of more than \$2B in new facilities, renovation, maintenance & utilities projects during his 25-year career at Notre Dame. He has lead the design & construction of more than 40 new campus buildings totaling over 4 million square feet & the renovation of scores of facilities during his tenure. Doug is also responsible for Notre Dame's Utilities, Maintenance & Landscape Services team that provide facilities operation services to 200+ buildings covering nearly 12 million square feet & more than 1,000 acres of campus grounds.

**Tyler Kanczuzewski, Vice President of Marketing & Sustainability, Inovateus Solar:** Tyler is the Vice President of Marketing & Sustainability, Board Member & an investor of Inovateus Solar. Originally from South Bend, he was recently immersed in the Grand Rapids & West Michigan sustainability community while working on his MBA at Grand Valley State University with an emphasis in Sustainability, graduating in 2019. He has since led the company's efforts in stewardship & sustainable practices & creative marketing. He completed his undergraduate work at Holy Cross College in Notre Dame with a Bachelor of Arts & major in Business.

---

**Kelly Weger, Senior Services Manager - Sustainability and Specialty Services, Purdue Manufacturing Extension Partnership:** Kelly is a registered architect in the state of Michigan, a LEED Accredited Professional & AEE Certified Energy Auditor. Kelly has over 15 years of experience working on commercial, governmental & industrial projects. She has helped hundreds of companies to ascertain energy & sustainability goals & opportunities, providing real-world results in a cost-effective manner. She has provided technical third-party reviews of facilities & operations for companies in plastics, metals, batteries, data centers, property management & many others.

---

**Steve Fischer, Corporate EHS Director, Herff Jones:** Steve has served as Corporate EHS Director at Herff Jones since January 2020. He previously served as Corporate Senior EHS Director for Haynes International, manufacturer of nickel & cobalt alloys for more than 30 years. He maintained direct oversight & managed EHS, regulatory compliance, workers compensation & risk management in a manner that assisted Haynes in achieving organizational excellence. He was successful in achieving certification in both the OHSAS 18001, ISO 14001 & was formally presented with the National Achievement Award from the National Safety Council while at Haynes International.

**Brice Holland, Associate Creative Director, Herff Jones:** Brice is an Associate Creative Director with Herff Jones, working in their Indianapolis Headquarters. He's the co-chair of Herff Jones' Sustainability Committee, which is in the early stages of its assessment efforts. Brice was asked to be part of this committee because of his marketing and communications experience, which is an important part of this process. Once goals have been established and milestones have been achieved, Brice will work with the sustainability committee and the HJ marketing team to inform internal stakeholders and external partners.

---

**Stephen Holcomb, Manager, Environmental Policy and Sustainability, NiSource:** NiSource serves nearly four million natural gas and electric customers in Indiana (NIPSCO) and five other states. Stephen's responsibilities include developing and tracking progress to NiSource's greenhouse gas reduction and other environmental improvement targets. He received a B.S. in Chemistry and Meteorology from Valparaiso University and an M.S. in Atmospheric Science from Colorado State University. He and his wife are parents to three kids in addition to foster children.

---

**Avanti Lalwani, President, Briter Products, Inc.:** Briter Products is focused on creating systems using solar power & lithium ion batteries to make independent, sustainable living a practical lifelong option. Avanti proposed a system of resource management & stewardship to reapply organic matter to the land surrounding the business on 17 acres of land in South Bend. By amending fill dirt regions with materials generated by ongoing operations (corrugated cardboard, grass clippings & compost materials) in combination with planting plants & trees, changes of the fill dirt region can be tested, monitored & made public for further study and or conservation efforts.

## SCHEDULED SPEAKERS

**Aaron Sawatsky-Kingsley, Director of Environmental Resilience, City of Goshen:** Aaron has worked as Goshen's first City Forester since 2006. He created the city's first GIS-based public tree inventory & oversaw the city's first urban tree canopy assessments. Aaron & the Goshen Tree Board crafted a canopy goal of 45% tree canopy coverage by 2045, which the city adopted in 2019. In 2020, he was asked to assume the role of Director of the newly created Department of Environmental Resilience, which has been inventorying the city's greenhouse gas emissions & drafting a Climate Action Plan for government operations. He has a BA in English and a Master's of Science in Natural Resource Management.

---

**Adam Parsons, Director of Facilities Management, City of South Bend:** Adam serves as the Director of Facilities Management for the City of South Bend, balancing the three main responsibilities of energy management, building maintenance & space utilization. His current portfolio is geared toward standardization of City processes, instituting sustainability throughout everyday facility operations. Adam was drawn to public service during his time at the Indiana Attorney General's Office, serving as a project manager focusing on process improvement. Prior to his time in government, Adam was an applications engineer at an engineering sales firm, focusing on energy efficient HVAC and lighting technologies.

---

**Therese Dorau, Director of Climate Communications, Kim Lundgren Associates:** Therese helps local government clients engage their citizens in climate action. She previously served as the inaugural Director of Sustainability for the City of South Bend, where she led the creation of the City's first climate action plan. She has 15 years of experience in public policy, energy efficiency, renewable energy, and sustainability management in corporate, non-profit, and government sectors. Therese has a B.S. in Chemistry from Xavier University and an M.S. in Sustainable Systems from the University of Michigan's School of Natural Resources and Environment.

**Carrie Veldman, Membership Manager, West Michigan Sustainable Business Forum:** Carrie is the Membership Manager for West Michigan Sustainable Business Forum. She received her Bachelor of Science degree from Aquinas College studying Sustainable Business in 2012. Previously, Carrie was the Sustainability & Philanthropy Manager for BarFly Ventures where she ran a successful sustainability & waste diversion program across 20 bar & restaurant locations and raised thousands for local urban farm and clean water initiatives.

---

**Doug Baum, P.E., BEP, Vice President, National Director of Facility Assessments for Terracon Consulting:** Doug leads Terracon's national practices for Facility Asset Management Consulting, Property Condition Assessments and Construction Consulting Services, and is responsible for innovation and quality within each practice, including developing sustainable and resilient solutions for facilities. Doug has over 30 years' experience servicing all stages of the built environment life cycle. He is a licensed Professional Engineer, with a BS in Civil Engineering from the University of Cincinnati and a Business Energy Professional certification from AEE.

---

**Fred Mohler, Senior Service Manager, Ideal Consolidated, Inc.:** As a member of the Plumbers and Pipefitters Union Local 172, Fred has had 47 years of HVAC experience across a broad spectrum of equipment. Fred graduated from ITT Technical Institute's Heating and Air Conditioning program with honors, with additional advanced education in air conditioning and heat pumps from Jackson Community College.

---

**Avipsa Mahapatra, Climate Campaign Lead, Environmental Investigation Agency:** Avipsa drives the organization's climate strategy to use primary evidence to move systemic changes, influencing international & domestic policy on HFCs for over a decade. She's led world-changing exposés of climate-crimes & has been featured in the Washington Post, the New York Times, the Guardian & the Grist. Avipsa was an official member of the Indian delegation to UNFCCC COP 14, and has worked with the Development Alternatives, Earth Institute New York, WWF Norway, 350.org & PowerShift.

---
