

## Drive Clean Indiana, St. John, Indiana Summer 2022 Intern Position

[Drive Clean Indiana](#) (DCI) is seeking internship candidates for the summer of 2022 through the U.S. Department of Energy's Clean Cities University Workforce Development Program. The paid intern may begin on or around June 13, 2022 and conclude on or around Aug. 26, 2022. The position involves working 40 hours per week for 10 weeks (one week unpaid) in our St. John, Indiana office. Stipends range from up to \$4,800 for an undergraduate student to \$6,000 for a graduate student.

The student will be involved in a variety of technical discussions and projects, including gathering and analyzing fleet and equipment data (including fuel usage, vehicle/equipment types, annual mileage), educational/outreach activities, discussions and meetings with high-level professionals and elected officials, etc. To that end, DCI seeks a candidate with strong skills in technical writing, statistics, analysis and interpersonal skills.

Students studying engineering, environmental science and/or urban planning are strongly preferred, with an emphasis placed on graduate students. However, all applicants in all years and fields of study will be considered. Many past internships have led to permanent positions.

The Clean Cities University Workforce Development Program (CCUWDP) is an initiative of Clean Cities. Drive Clean Indiana is a 501(c)(3) nonprofit organization managed by Legacy Environmental Services, Inc., an Indiana Certified Women's Business Enterprise. Designated as the 71st Clean Cities coalition on June 15, 1999, Drive Clean Indiana is one of the U.S. Department of Energy's more than 75 Clean Cities coalitions and is the only Clean Cities coalition in the state of Indiana. The organizations support the nation's energy and economic security by building partnerships to advance affordable domestic transportation fuels, energy efficient mobility systems and other fuel-saving technologies and practices.

The Clean Cities internship will give students hands on training in projects that advance the adoption of sustainable transportation methodologies across Indiana. Previous interns have assisted with project implementation and execution, including but not limited to fleet data acquisition and analysis; grant-related data collection; emissions inventory data collection and analysis; social media management, Webinar and event planning, staffing and execution, press conferences and greenhouse gas emissions inventories.

Interested candidates may send a resume and cover letter to Drive Clean Indiana Executive Director Carl Lisek at [clisek@drivecleanindiana.org](mailto:clisek@drivecleanindiana.org) by May 30.
